

**Progressives for Democracy in America endorses Mayo Makinde for State Representative,
25th Ohio District**

Mayo Makinde is a progressive champion, fighting to improve the lives of the residents of the 25th District and all Ohio citizens. Mayo is an outspoken advocate on Criminal Justice Reform, Campaign Finance Reform, and supports universal single-payer healthcare, which millions of Americans are realizing during the on-going COVID-19 pandemic is the only way to correct the huge flaws in the current American healthcare system.

Mayo also looks at every economic issue with the interests of the average person, the working class, and the poor in mind; opposing the severe economic inequality that exists in Ohio and across the United States. As such, Mayo is also an unwavering advocate for affordable housing.

Lastly, Mayo believes in a solution to the climate emergency that fits what the current science is telling us about this existential threat to humanity. Thus, Mayo believes that the stimulus packages that are developed following the COVID-19 crisis must be in a line with a Green New Deal that will transform America and Ohio's energy and transportation systems, while also reviving the economy at the same time.

Progressives for Democracy in America calls on all voters in Ohio's 25th District to support Mayo Makinde for State Representative. Election day is April 28th.

Lastly, Progressives for Democracy in America encourages all Ohioans to continue practicing social distancing, thus please vote by mail when voting for Mayo.
